the aim of this book is to expand the subject and matter of architecture and to explore their interdependence there are now many architectures this book acknowledges architecture far beyond the familiar boundaries of the discipline and reassesses the object at its centre the building architectural matter is not always physical or building fabric it is whatever architecture is made of whether words bricks blood cells sounds or pixels the fifteen chapters are divided into three sections on buildings spaces and bodies which each deal with a particular understanding of architecture and architectural matter the richness and diversity of subjects and materials discussed in this book locates architecture firmly in the world as a whole not just the domain of architects in stating that architecture is far more than the work of architects this book aims not to deny the importance of

architects in the production of architecture but to see their role in more balanced terms and to acknowledge other architectural producers architecture can for example be found in the incisions of a surgeon the instructions of a choreographer or the movements of a user architecture can be made of anything and by anyone

using a range of examples from a wide spectrum of publications this fourth edition examines the everyday skills of newspaper reporting and remains the essential guide to working as a newspaper journalist

digital techniques are central to almost all modern telecommunications systems the third edition of digital communications has retained both its comprehensive coverage and its balance between theory applications and systems implementation its main aim is to develop the mathematical theory of signal processing and use this theory to describe modern digital communications this text is suitable for undergraduates and first year postgraduate students it also provides an excellent overview for professional engineers book jacket

without evoking formal theory these lectures explore and question ideas and fashions that dominate the current art world catherine david and iwona blazwick explore the curator s new profile jeroen boomgaard and koen brams tackle theory and art anthony dunne and fiona raby question the relationship between design and art bart lootsma and camiel van winkel look at art in public spaces and j wesseling and k zijlmans discuss the position of non western art in the west

comprehensive directory of databases as well as services involved in the production and distribution of information in electronic form there is a detailed subject index and function service classification as well as name keyword and geographical location indexes
